

GRAVES OF VETERANS TO BE DECORATED TUESDAY MORNING

Day of Hallowed Memory
Again Rolls Round—Simple
Ceremonies Here

FLAG TO FLY ON LIBRARY

The call of a G. A. R. veteran several days ago for floral offerings for the graves of dead soldiers of the civil war, who sleep in Evergreen cemetery, has met with a liberal response. Flowers should be sent to the Copper Queen library, where they will be taken care of by C. S. Garlick and Mrs. C. G. Vall. These should be sent in Monday afternoon and before nine o'clock Tuesday morning, May 23, which is Decoration Day.

All veterans of the civil war, regardless of what side they fought on are requested to meet on the morning of Decoration Day in front of the library and go to the cemetery in a body. Veterans of the Spanish-American war and sons of veterans are also requested to attend. The veterans will take the 10 o'clock car for the cemetery. Mr. Garlick has arranged with the sexton to have all the graves of veterans marked with flags. The big flag at the library will be put out at sunrise Tuesday morning. At the cemetery prayer will be said by one of the local ministers and a bugler will probably sound taps.

The graves of veterans in the old cemetery will also be decorated. These have been marked by Mr. Garlick. In all there are about 30 veterans buried in the two cemeteries. The day will be observed as a general holiday in the city, the stores, banks and business houses of all kinds closing for the day.

Helen Lowell has been engaged for "The Hen Pecks."

Allice Nelson has gone to Europe for her summer vacation.

ADD TO YOUR PERSONAL ADORNMENTS.

By the Use of Newbro's Herculide. A pretty woman may enhance her beauty and a plain woman become good looking by the proper care of the hair.

Nice hair, pretty hair, growing on the head it adorns, is one of nature's greatest beautifiers. The kind of hair which always makes us look the second time, follows the use of Newbro's Herculide, and is possible for every woman.

Regular applications of Herculide will keep the hair from coming out and add to it that luxuriance, snap and luster which are essential to hair beauty.

Newbro's Herculide is the Original scalp prophylactic. All other hair remedies claiming to kill the dandruff germ are simply trying to trade upon the reputation of genuine Herculide. Applications may be obtained at good barber shops and hair dressers.

Send 10c in postage to The Herculide Co., Dept. R., Detroit, Mich., for sample and booklet.

One dollar size bottles sold by all druggists under an absolute guarantee.

LOCAL CONCERN WILL BID ON GAS PLANT

Postponement of Auction
Taken in Order That It
May Investigate

The sale of the property of the Bisbee Gas company, which was to have been held yesterday, has been postponed by the sheriff for ten days, according to Under Sheriff Hopkins of Tombstone, who was in the city yesterday.

The new date for the sale of the property is June 7. The personal property will be sold at the office of the Bisbee Light and Power company at Lowell, instead of at Bisbee, at 10 o'clock in the morning of that date and the real estate will be sold at Tombstone in front of the county court house in the afternoon. It is understood that the postponement was made in order that certain titles of the property to be sold might be investigated. At least one local concern is said to be preparing to make a bid on the gas plant.

MORE TROOPS WILL ARRIVE IN BISBEE

Hikes from Douglas to Be
Taken to Camp at
Warren

The troop of soldiers under Lieutenant Miller, Brown and Kennedy, who were encamped at Warren Friday, left yesterday morning for Douglas, where they are a part of Col. O'Connor's command. Other troops will be "hiked" across the country to Warren from Douglas, as a part of practice program being carried out by Col. O'Connor.

The camp ground at Warren is furnished by the Warren company. A water pipe has been run to the camp and everything done to make the troopers comfortable. Other detachments will arrive this week and Bisbee will be alive with the khaki-clad boys.

BAD DAY FOR BOATING

At a fashionable seaside resort a lady visitor, in charge of some half dozen youngsters, spent a good deal of her time in attempting to make bargains with the boatmen on the beach.

She came to be pretty well known and her patronage was not particularly desired.

"Well, John," she remarked to a boatman one morning, "what will you charge to row us round the point?" "Well, mum," said John, "I'm sorry to say, but I wouldn't possibly do it under ten shillings."

"Ten shillings?" gasped the lady. "That is simply preposterous! That man over there," indicating another boatman, "has offered to take us for half a crown."

"That may be, mum," valiantly responded John. "Yes, see, but he's a very little. His old boat's full of holes, while I've only got a few in mine."

The lady didn't go rowing that morning—ideas.

COCHISE MAY HAVE ROUTE OF ROAD CHANGED

Territorial Engineer J. B. Girard Comes Here to
Make New Survey
of Highway

ROUTE THROUGH HERE
IS FEASIBLE, HE SAYS

Letting of Contract the Other
Day Will Not Prevent
Change in Road
Plans

"You can say for me that Bisbee and Cochise county will get value received for the money they have paid into the territorial highway fund," said Territorial Engineer J. B. Girard, who was in Bisbee yesterday looking over the road leading out of Bisbee to Tombstone.

Mr. Girard came here at the request of the territorial board of control to investigate the feasibility of running the highway through Bisbee to Tombstone. A force of surveyors have been put to work on the road, beginning at the city limits of Bisbee. The surveying crew has progressed about five miles and so far, Mr. Girard stated, no difficult grades have been found, some of them being over 8 per cent.

The report of the surveying crew under Mr. Girard will be ready in about 15 days and will be sent to the board of control.

No Delay in Work.

Asked when the work on the roads in Cochise county would be started, Mr. Girard stated that work would not stop at all and that just as soon as the route is selected the contract will be let.

It was reported in Phoenix however, that after the work being done in Pima county had been completed no further work would be done in this section. This Mr. Girard denied emphatically and says that Governor Sloan stated at the meeting held in Phoenix a week ago yesterday that work in this section, in Cochise county, would be pushed and so advised the territorial engineer to state to the people of the section.

At the present time and on investigation so far made, the engineer believes that the route between Bisbee and Tombstone will prove feasible, though no route will be selected until the report as the routes is made to the territorial board of control, fifteen days hence.

Mr. Girard stated that the route of the highway after leaving Tombstone was uncertain at this time and would not be located until the surveyors had investigated the lay of the various possible routes.

Will Not Interfere.

The letting of the contract for the road work in Pima county, as reported in the Review several days ago, will not make it impossible to change the route between Tucson and the Cochise county line. As a matter of fact, Mr. Girard states that the work contracted for does not run to Barstons. The road out of Tucson running east is already a fine one for fifteen miles. A 35 mile section of the road, extending further east, will now be required.

"This will not make it impossible, however, to run the road northeast as to make a feasible route through the towns of Cochise county," said Mr. Girard.

Mr. Girard believes that the whole controversy regarding the route of the highway has been the result of a misunderstanding. The Hereford route as the route advocated by Douglas has been named, running as it does through Hereford, was merely a preliminary survey and did not mean that the route had been finally selected. The engineer stated that four different routes were surveyed and considered in the vicinity of Globe before the highway route was decided upon.

No Cause for Trouble.

"There is no disposition on the part of the board to make Cochise county accept an arbitrary route for the highway," said the engineer. "I know that they are disposed to consider any suggestions as to the highway route that the county or towns on the county make. And certainly I have no axe to grind in the matter. However, I must look at the matter from an engineering standpoint, as not every route would be feasible. It has come to me that it has been said that I 'have it in' for Bisbee. This is absolutely untrue, for I have always felt kindly toward this city and county. You may say for me that for the money you have paid out for a highway, you will get full value in return."

If the route from Bisbee to Tombstone, connecting with the first section of the highway from Douglas to Lowell, is approved by the territorial engineer and the territorial board of control, it assures that both Bisbee and Tombstone will be on the highway. Whether the surveyors will report favorably on the further extension of the road by Benson, or will go to the Pima county line by way of Fairbank, remains to be decided. It is probable that the Bisbee-Tombstone extension may begin be-

Summer In All Her Glory Has Arrived

DECORATION DAY signals summer. When it arrives you can feel quite certain that chilly days have departed for good. If you've worn your winter clothes up to now, it will hardly be discreet to do so longer, for hot shimmering days will soon be here. You'll want to cast off the old and take on the new when you see Benjamin Clothes. Their clever New York swing, their certain New York style and their excellent New York tailoring, make them supreme---commanding.

They are the clothes de luxe, but they can be purchased at prices which are indeed moderate. The fact is, such values have never been given for from \$20.00 to \$35. as you'll find in this famous make.

Be well dressed on Memorial Day.

Wear Garments of New York Style.

Make the occasion memorable for more reasons than one.

SALTY SENTENCE IS IMPOSED ON CLUTING

Smuggler Gets Ten Months
in Jail and Is Fined Two
Hundred Dollars

William Cluting, the man tried at Tombstone in the federal court on the charge of smuggling opium into the United States from Mexico, was sentenced to 10 months in jail and a fine of \$200 yesterday morning, the jury having returned a verdict of guilty on Friday afternoon.

Capp and Ferguson, his two confederates, were also found guilty.

The Douglas-Lowell section is completed.

Work on the highway in Forest Canyon will be redoubled and that section of the highway rushed to completion. Fifty teams will be put to work in Forest canyon in a few days. This is the worst section through which the highway passes. Only about a half mile remains before the crew will be out of the canyon. The engineer says that the rock being taken out of the route is the finest road material in the world, needing only a crusher and a roller to make it the finest road in the territory.

Work will begin this morning on a ninety foot, one-span concrete bridge over the canyon, three yards below Forest ranch. This will be one of the finest bridges on the highway.

WOUNDED REBEL IS FAST RECOVERING

Loses His Arm and Suffers
Brain Affliction, but
Is Better

Manuel Gregalva, the youth in the surrecto who was wounded in the blunder at Naco on the morning of May 19, when rebels under General Lomeli were fired upon by the rebel garrison at Naco as the supporting detachment marched into the town, is fast improving and will recover, it is believed.

Gregalva's arm was amputated at the C. and A. hospital on the morning of the fight. He was brought to Bisbee by Dr. F. R. Williams. The arm healed, but the rebel began acting queerly and it was thought his

mind was unbalanced. Investigation showed that he was suffering from a clot on the brain. This was removed by operation and now he is getting along nicely. Captain Villa has returned to his command.

J. M. Howell, a popular druggist of Greensburg, Ky., says: "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all druggists.
